CS 346: Meeting Minutes

Date: Oct 25th 2023   Team: 211

Present: All

Absent:

Agenda

- Discussing about what database to use.
- Discussing about adding homepage and summary page dynamic time feature.
- Discussing about adding Calendar dynamic time feature.
- Discussing about completing all rich texture features in Note section.

Notes

- Need to first setup database, then make connection between the section and the database.

- Dynamic time features can use local date.

- We can use Compose Rich Editor library to complete the rich text format features in Notes section.

Decisions

- We decided to use SQLite.

Actions

- Setting up SQLite database in our project.
- Implementing dynamic time feature.

- Fixing any bugs from sprint 1.
